1-Introduction to Mouvement Social

Mouvement Social (MS) is a Lebanese NGO founded in 1961, working toward sustainable development and social justice. Through 12 community centers across Lebanon, MS empowers marginalized communities by addressing basic needs and promoting socio-economic development. Its programs focus on education, child protection, youth and women empowerment, and reintegration of vulnerable groups. MS also advocates for policies that uphold human rights and community well-being.

Our Vision – A cohesive and united society, built on solidarity among its components, capable of managing its resources responsibly to preserve its dignity and rights, without compromising the rights and dignity of future generations.

Our Mission – To empower individuals and groups to become active citizens, aiming to achieve a society that is more humane, more just, and more equitable in all its dimensions economic, social, environmental, and political. This is pursued by addressing manifestations of marginalization, injustice, exploitation, and societal inequalities.
